WHO IS YVONNE

Yvonne's professional journey started with Microsoft in the 90s, travelling the world supporting education teams. She returned to Australia with a mission and a media profile as Ms Megabyte, demystifying tech across our most popular TV shows and magazines.

This profile naturally led to speaking and then MC invitations. Yvonne is now an inspiring, positive and lively annual presence at many Australian and international events. She engages audiences from the first minute to the closing address, bringing insight and relevance to every session, activity and break.
