

YVONNEadele

Introduction:

You might know remember Yvonne as a character she invented in the 90's called **Ms Megabyte** who appeared in the national media advising audiences how to get the most from the technology around them.

She was training small groups at the time and ran a one person brainstorm to come up with a way to teach more than one room at a time and Ms Megabyte was born.

Yvonne believes everyone has unlimited ability to think creatively about everyday challenges, and she is on a mission to show people how to unleash those hidden talents. She calls it a 'friendly poke in the eye' and has audiences bursting with fresh ideas in no time!

Everyone leaves with the resources, confidence and inclination to use creative thinking to solve any challenge in the future.

So, grab your pen and lots of paper and please join me in welcoming Yvonne Adele.
